DiversifiedCPC INTERNATIONAL

High-Purity Foam Blowing Agents

Performance-Driven Solutions for Polyurethane Foam Systems

Engineered for appliance, panel, spray foam, and integral skin applications. Available as pure components or custom blends to meet your exact formulation requirements.

The POWER of PURITY®

Hydrocarbons	HFOs & HFCs	Specialty & Co-Blowing
N-Butane	HFO 1233zd*	Dimethyl Ether (DME)
Isobutane	HFO 1234ze*	Dimethoxymethane (Methylal / DMM)
Propane	152a	Methyl Formate
Isopentane	134a	Trans-1,2 Dichloroethylene (t-DCE)
Cyclopentane - 70% min purity		Ethanol
Cyclopentane - 95% min purity		
Cyclopentane - 99% min purity	*Available only as components in custom-blended formulations.	

Custom Blends

Multi-component blends combining hydrocarbons, HFOs, HFCs, and specialty co-blowing agents for optimized performance, cost, and regulatory compliance.

Available Packaging

- Bulk Rail Car
- Isotainer
- Tank Truck
- 100-Gallon Cylinders

Why Choose Diversified CPC?

- U.S. Manufacturer and Distributor
- 99% Average On-Time Delivery
- Tank Sourcing & Installation Services

About Diversified CPC

Established in 1964, we manufacture and distribute the highest-purity hydrocarbons, specialty gases, and blends to help companies improve product quality and their safety, sustainability, and operational outcomes.
